

Pavement Marking Tape Comparison Chart

Type	Minimum Thickness	Material Description	Traffic Volume	Recommended Uses	Approximate Price Per Ft*
Removable Pavement Tapes (for temporary applications)					
Wet Reflective	25 mils (.64 mm)	Reflex-reflective film with larger and brighter glass beads on conformable metallic backing.	Moderate	Ideal for road construction marking new traffic patterns where visibility is paramount, such as dangerous curves. Enhanced visibility on wet roads as compared to economical grade.	\$0.49
Economical Grade	12 mils (.3 mm)	Reflective film with smaller glass beads on conformable metallic backing.	Light to moderate	Short-term road construction projects in areas of light traffic.	\$0.36
Durable Grade	30 mils (.76 mm)	Rubber Base with Glass Beads and Anti-Skid Particles	Medium volume, slow speed traffic.	Road construction projects up to 12 months duration.	\$0.91
Economical Grade Black Out Mask	12 mils (.3 mm)	Matte non-reflective surface with conformable metallic backing.	Light to moderate	Recommended for short-term road construction zones requiring average durability.	\$0.34
Durable Grade Black Out Mask	30 mils (.76 mm)	Rubber Base with Non-reflective matte surface.	Medium volume.	Recommended for long-term road construction zones requiring extra durability, for a maximum service period of 12 months.	\$0.87
Parking Lot Tapes					
Economical Grade Parking Lot Tape	12 mils (.3 mm)	Reflective film with smaller glass beads on conformable metallic backing.	Light to moderate	Economical option for parking lot striping.	\$0.36
Durable Grade Parking Lot Tape	30 mils (.76 mm)	Rubber Base with Glass Beads and Anti-Skid Particles	Medium.	Recommended for parking lots experiencing medium volume traffic.	\$1.15
Permanent Highway Tapes					
Durable Grade Highway Tape	60 mil (1.52 mm)	Rubber Base with Glass Beads and Anti-Skid Particles	Medium to heavy.	This moderate grade tape is suitable for use on most roads and highways.	\$1.19
Extended Life Highway Tape	90 mil (2.29 mm)	Rubber Base with Glass Beads and Anti-Skid Particles	Heavy	This heavy grade tape provides exceptional durability in the most demanding traffic conditions. Heaviest grade of pavement marking tape available. Used in primarily for marking highways and intersections.	\$1.79

*Prices may not reflect current market prices. Based on the retail price per linear foot of 4 inch pavement tape. All tapes are available online at <http://www.stop-painting.com/pavement-marking.html>. Please call Insite Solutions, LLC at 1-866-284-1541 for more info or to place an order.
